

Providing a unique student learning experience at WISE

At WISE, we aim to provide each student with a unique learning experience. We are welcoming, kind and friendly to all of our students and we always act on any feedback from students to ensure we are giving the best possible service.

Student's needs and interests determine the class teaching plan

We always have the student's needs and interests at the heart of our planning. For that reason, although each course has a generic course syllabus, at the start of every 2 week period, we create 2 weekly plans having asked the students for their input regarding materials / topics / grammar areas / vocabulary, etc. The teacher also considers areas that have cropped up that need to be addressed or revised from the previous 2 week cycle.

Students are involved in the planning of the course

As WISE offers continuous enrolment, we are aware that sometimes the needs of the class change. For this reason we understand that having the students themselves involved in the planning process can undoubtedly motivate them.

Students' development and progress is recorded

We record the results of each student's entrance test, progress tests and exit test. We also keep in each class folder details of the termly tutorials. We believe that tracking the progress of each student and showing them is fundamental to the motivation of each student.

We promote British Culture

The core British Values are promoted throughout WISE not only through class discussion but also through carefully selected materials. Teachers ensure that each week they cover one aspect of British culture and this is represented in the 2 weekly plan.

Our British Cultural events provide an enriching experience

WISE also offers a cultural programme which runs twice per half term. Students are given the opportunity to experience British games / events / food whilst practising their English language skills and making friends.

Everything we do here at WISE is done with the aim of providing a beneficial, enjoyable and enriching learning experience as well as offer an insight into British life and culture.
